4.4 Procedure

- 4.4.1 BOs, who are the registered holders of the securities of an Issuer, will approach the DP for dematerialisation of securities held by them in physical form.
- 4.4.2 The DP shall hand over a Demat Request Form (DRF) to the BO. (Annexure 4.1.)
- 4.4.3 The BO shall fill up the following details in the DRF: -
- BO Account Number
 - Name(s) of the account holder(s)
 - ISIN
 - Name of the Company
 - Nature of Security
 - Type of Security
 - Number of Certificates
 - Total quantity to be dematerialised
 - Certificate Details: Folio No., Distinctive Nos., Certificate Nos., Number of Securities, Face Value.
 - Lock-in reason & Lock-in release date, if any.
- 4.4.4 A separate DRF should be filled up for free securities and lock-in securities. If certificates with different lock-in reason / lock-in release date exist, then a separate DRF should be filled for each lock-in reason / expiry date combination.
- 4.4.5 The BO account holder(s) shall sign the DRF: -
- As per the specimen signature(s) recorded with the DP, and
 - As per the specimen signature(s) recorded with the Issuer/RTA.

appearing on the certificates tally exactly with those recorded under the BO account maintained with CDSL. (In case the names are matching, but order of the names is not the same, refer to Transposition-cum-Demat procedure mentioned elsewhere in this chapter).

- In case the BO's name on the DRF is not matching with that on the certificate (e.g. the holder of the securities may have opened the demat account in the name of Sushil Ramesh Shah but his name on the certificate may appear as Sushil R. Shah or S. R. Shah, etc.), the dematerialisation request could be accepted by the DP, if the BO's signature on the DRF matches with specimen signature available on record with the DP.
- Whether all the holders have signed the DRF and the signatures of the account holders tally with those recorded by the DP.
- If there is any discrepancy in any of the details, the DP shall get it rectified and duly authenticated by all the holders.
- The error-free DRF shall be taken up for further processing by the DP.
- The Participants shall check the Distinctive Numbers of certificates of securities submitted by its clients for dematerialisation with the records of Distinctive Numbers made available by the depository and ensure that the appropriate International Securities Identification Number [ISIN] is filled in DRF, as applicable.

4.4.8 If the DRF is complete in all respects, then the DP should give an acknowledgement to the BO. Date of receiving the DRF should be written on the DP's copy of the DRF and on the acknowledgement given to the BO. The authorised official of the DP should sign it.

4.4.9 The DP shall capture the details from the DRF & Certificates in the CDSL system and shall generate the Demat Request Number (DRN). The DP shall write down the DRN on the DRF. The DP should ensure that the correct ISIN is selected where the Issuer has more than one ISIN.

4.4.10 In case the Securities are in "Lock-in", then the following details need to be specified: -

- Lock-in Release date(s)
- Lock-in reason
- Lock-in reason can be any one from the list provided in the CDSL system from time to time.

4.4.11 The "System-generated acknowledgement" of the demat request should be given to the BO after the authorised official of the DP has signed and stamped the same.

4.4.12 The DP shall deface the certificates by affixing a rubber stamp as shown below. The DP should take proper care that the stamp is affixed in such a manner that no material information such as Distinctive number, Folio number, Certificates number, etc., are

smudged or become illegible.

<p><i>Surrendered for Dematerialisation</i> DP Name: XYZ Limited BO ID : 12012000 00001234 DP ID Client ID</p>

- 4.4.13 The DP shall mutilate the certificates, by punching two holes at the top of the certificate(s).
- 4.4.14 The DRF shall be authorised by the DP by putting his seal & signature. The certificates & the original DRF shall be sent to the Issuer/RTA along with a system-generated covering letter. A copy of the DRF is to be maintained by the DP for its own reference and records.
- 4.4.15 The DP shall capture the despatch details on the CDSL system, such as the despatch reference number, despatch date, name of courier, etc. **The DP must despatch the physical documents to the Issuer / RTA within 7 days from the date of receiving physical documents from the BO.**
- 4.4.16 After receiving the physical documents, Issuer/RTA shall compare the physical documents with the electronic data. If the details do not tally between electronic and physical request, the Issuer/RTA shall inform the DP. The DRF and certificates shall be sent back to the DP under a Rejection Memo, specifying the reason for rejection.
- 4.4.17 **The Issuer/RTA should complete processing of the demat request within 15 days of receiving the physical documents.** The BO Account is credited for the number of securities confirmed by the Issuer/RTA.
- 4.4.18 The reasons under which a dematerialisation request can be rejected by an Issuer/RTA shall be as provided in the CDSL system from time to time.
- 4.4.19 **The DP shall arrange to return the certificates along with the rejection letter sent by the Issuer/RTA to the concerned BO within 7 days from receipt of rejected certificates.**
- 4.4.20 **If the demat request is not processed by the Issuer/RTA within 21 days after it has been set up on the system, then the DP should follow up with the Issuer/RTA.**
- 4.4.21 **If the DP does not get the documents within 30 days from the date of rejection by Issuer/RTA, then the DP should follow up with the Issuer/RTA.**

4.5 Procedure to be followed if Physical Securities are lost in Transit

4.5.1 In cases where the Issuer/RTA has received information, setup by the DP, about dematerialization electronically from CDSL but physical certificates have not been received, the procedure to be followed is as under: –

- The DP shall provide the Issuer/RTA proof of dispatch and also confirm that the certificates are not returned undelivered at their end.
- If the certificates have not been returned undelivered and are not traceable at the Issuer/RTA's office, then it will be assumed that the certificates have been lost in transit. In such a case, the DP shall execute an Indemnity Bond in favor of the Issuer/RTA. Format of the Indemnity is given in Annexure – 4.3.
- If the Issuer/RTA has already rejected the original demat request, then a fresh demat request is to be set up by the DP and the Indemnity Bond duly executed shall be submitted to the Issuer/RTA, along with a new DRN. The Issuer/RTA shall accept the demat request and carry out dematerialization on the basis of the Indemnity Bond given by the DP.
- In cases where the Issuer/RTA has rejected the demat request (for such a reason where the rejection can be rectified by the BO/DP), and despatched the same to the DP, and such certificates are lost in transit, then an Indemnity Bond is to be executed and submitted to the Issuer/RTA along with a new DRN. In such cases, the DP is required to obtain prior consent from the Issuer/RTA for execution of Indemnity.
- However, in cases where the Issuer/RTA has rejected the demat request (for such a reason where the rejection cannot be rectified by the BO/DP), the Issuer/RTA will retain the documents. Such rejections may be on account of Fake / Forged / Duplicates already issued / Court Injunctions, etc. In such cases, the DP should obtain rejection letters from the Issuer/RTA & hand over the same to the BO in order to enable the BO to take up the matter with the Issuer/RTA concerned.

4.6. Transposition-cum-Dematerialization

Transposition is "Change in order of names". For example, if the certificates are in the names of A & B, the same can be lodged for dematerialization under account held in the name of B & A, by filling up the DRF and the Transposition Request Form (TPRF). This will enable the Issuer/RTA to transpose the securities in the order of the names in which the account is opened and then accept the dematerialization request.

- 4.6.1 In case the BOs wish to transpose and demat the securities, the DP shall handover a TPRF as per Annexure – 4.2 along with the DRF to the BOs.
- 4.6.2 In case of transposition-cum-dematerialisation, the BO should mention the details of the account in which they wish to dematerialise the securities.
- 4.6.3 The DP shall verify the following on the TPRF :
- Whether the TPRF is complete.
 - Whether the TPRF contains only those names (in any order) that are the holders of the BO account.
 - Whether all the holder(s) have signed the TPRF.
 - The DP should maintain a copy of the TPRF along with a copy of the DRF.

4.7 Transmission – cum - Dematerialization

- 4.7.1 In case of death of one or more joint holders, the surviving holder(s) can get the Share Certificate(s) dematerialized by submitting the following documents, along with the Share Certificate(s) :-
- a) Dematerialisation Request Form
 - b) Original or copy of the death certificate of the deceased holder(s), duly notarized or attested by a Gazetted Officer.
 - c) Transmission Request Form – Annexure 4.5 (for death of one/more of joint holder(s))
- 4.7.2 The DP should ensure that the demat account is in the name of the surviving holders only.
- 4.7.3 DP should setup a demat request and submit all the documents to the Issuer/RTA with the system generated letter.
- 4.7.4 DP should write in the "FROM BO ID" column as "Transmission-cum-Demat".

4.8 Procedure for Dematerialization of Shares which are held in more than three names

In case the number of joint holders are more than three, the DP has to process the dematerialization request as per usual procedure ensuring that the main BO name is mentioned as 1st Account Holder and the balance joint holders are accommodated in the two joint holders' names but ensuring that the pattern of holding as per the certificate tallies with the pattern of holding as per the account.

Such an account should be used only for the purpose of dematerialization and once all certificates have been dematerialized, such account should be closed and shares transferred to a new account opened in the name of maximum three holders (as given in chapter 2, point 2.4.7).

4.9 Reconciliation

The DP has to do a daily Reconciliation in respect of the following: -

Total Demat = Requests logged electronically and sent physically +
(Requests) Requests pending + Requests received physically only +
Request logged electronically but not sent physically.

Total Demat = Total confirmations (quantity) + Total Rejections
(Confirmation) Requested (quantity) + Pending (quantity) + Request
Logged electronically but not sent physically (quantity).

- A list of Top 200 companies with the maximum pending demat requests** is uploaded to the CDSL system and to CDSL's website **every fortnight**. DPs should ensure that this list is made available to DP-staff who receive demat requests from BOs, so that they may be in a position to appraise BOs of the Issuer (especially defaulting Issuers) and accept the shares for demat, only after re-confirming the same with the BO.

4.10 Records

- 4.10.1 The DP must maintain a record of the demat requests sent to the concerned Issuer/RTA.
- 4.10.2 The DP shall maintain a copy of the DRF and supporting documents, for a minimum period of 5 years or any such period as specified by SEBI/CDSL/Prevention of Money Laundering Act 2002, whichever is higher.
- 4.10.3 The DP must maintain a proper record of the demat rejections received and the despatch details for the documents returned to the BO.

- 4.10.4 Hard copies or soft copies of “follow-up” letters sent to the Issuer/RTA for pending demat requests are to be maintained by the DP.
- 4.10.5 If the DP intends to maintain/store the “follow-up” letters sent to the Issuer/RTA, in **electronic form**, then the DP shall ensure that the provisions of the Information Technology Act, 2000 in this regard are complied with.
- 4.10.6 If **original** copies of the documents have been submitted to the CBI, Police, Courts or any such competent authority or agency for investigation, then copies of such documents should be stored till the investigations are completed.
- 4.10.7 If **photocopies** of the documents have been submitted to the CBI, Police, Courts or any such competent authority or agency for investigation, then the original documents should be stored till the investigations are completed.
- 4.10.8 If **soft copies** of the documents [data in electronic form] have been submitted to the CBI, Police, Courts or any such competent authority or agency for investigation, then the DP shall ensure that the provisions of the Information Technology Act, 2000 in this regard are complied with, and that the said electronic data [soft-copies] are maintained on record and stored till the investigations are completed.

- Either manual or electronic register should be maintained for Inventory of the DIS booklets.
- This register should be updated as and when new DIS booklets are printed and also at the time of issuance of the DIS booklets to the BOs.
- Custody of the stock of DIS booklets as well as the inventory register should be with a senior official of the DP.
- Periodic reconciliation of the inventory register with physical stock should be carried out and properly recorded. A senior official of the DP who is not responsible for issuance and maintenance of the DIS booklets should do the said checks.
- For accounts operated by holder of POA or joint account holders, DIS may be printed in such a way that they can be distinguished from those used by single holder account(s).
- Along with the preprinted / pre-stamped account number, DPs may print name of the first holder on the DIS.
- For those BO accounts where correspondence address has been changed and request for DIS booklets is received within 30 days of address change, DP may confirm the request for issuance independently by way of written / verbal communication before despatching the DIS booklet to the new address.

6.5.2 Issue of Loose DIS

6.5.2.1 While issuing loose DIS to BOs, DPs must ensure the following–

- As far as possible, a DP shall not issue loose DIS.
- Loose DIS shall be issued only to the BO in person after verification of signature. Identity of the BOs should be verified with the documents submitted along with the account opening form. If this is not possible, then the BO should produce proof of identification.
- DP shall obtain the signature of the BO in the register for loose DIS.
- BOs should fill and sign the instruction in presence of the authorized official of the DP. Another official of the DP as an additional precaution may verify the DIS.
- Custody of loose DIS should be with a senior official of the DP.
- Only one loose DIS booklet may be opened at any time
- The DP shall not issue more than 10 loose DIS to one account holder in a financial year (April to March). The loose DIS can be issued only if the BO(s) come, in person, and sign the loose DIS in the presence of an authorised DP official.

- Instruction pertaining to loose DIS shall be entered in the CDSL system on the same day. If not entered, then the reason for not entering on the same day should be noted in the Loose DIS Register.

6.5.3 **Annexures to DIS**

6.5.3.1 DPs can accept “Annexures” to DIS in any of the following cases:

- Where a BO gives instructions for credit of securities to multiple BO accounts, or
- Where a BO gives receipt instructions for receiving securities from multiple BO accounts, or
- Where the space provided in the DIS is insufficient.

6.5.3.2 While accepting the “Annexures” to DIS, DPs must take the following precautions:

- Each page of the Annexure should bear the DIS serial no.
- Each page of the Annexure should be signed by all the holders / authorised signatories / POA, if any.
- Any alteration, correction, cancellation on the Annexure should be authorised by all the holders / authorised signatories / POA, if any.
- DIS should bear the details of the total number of pages annexed to the DIS and also the total number of instructions contained therein.

6.5.3.3 Where multiple BOs have given POA to a single entity, including DP or CM for execution of transactions on their behalf, following procedure is to be followed by the DP in such cases–

- DPs must maintain a separate register containing the details of BOs from whom such POA has been given. DPs should check that the delivery BOIDs have given POA to the entity signing such DIS.
- DPs shall maintain a separate series of DIS numbers for such purposes.
- BO ID shall not be pre-printed / pre-stamped on such DIS.
- Each page of the statement / computer printout attached along with such DIS should bear an DIS serial number.
- DIS number to be checked against the issue details before execution of the instruction.
- Each page of the statement / computer printout should be signed by the POA(s).
- A record of statement / Computer printouts containing consolidated details of instructions executed by the DP on behalf of the clients who have given POA should be maintained.
- For different types of transactions, separate statement / Computer printouts should be maintained.
- The statements / computer printouts should contain all the details as specified by CDSL in the format of the DIS. Each instruction should bear the delivering BO ID.
- Each row in the statements / computer printouts should contain the delivering BO ID.

6.5.4 Precautions while accepting DIS and executing transactions

- 6.5.4.1 As a risk management measure as well as to increase efficiency in DP operations, DPs are advised to install a **back-office system** with Maker/Checker facility incorporating features as specified by CDSL through communiqués,
- 6.5.4.2 In addition to specified features, the back office system should be "Settlement Pocket" compliant, that is: it should have all the features to support "Settlement Pocket". As a further risk management measure, CDSL has provided a utility to encrypt transaction files created in the back office. This feature should also be implemented in the back office system.
- 6.5.4.3 DP shall record the date and time of receipt on the Delivery Instruction Slip, on DP's as well as BO's copy while accepting the same for execution.
- 6.5.4.4 The DP shall accept the DIS for pay-in of securities from the BO in physical form at least up to 4 p.m. on T+1 day and in electronic form up to 6 p.m. on T+1 day. In case of late receipt of instruction, it should be accepted by affixing a stamp "*accepted for execution on best effort basis*".
- 6.5.4.5 DP must appoint an authorised official to check the DIS received from BO for execution of the instructions. Verification of delivery instruction slips has to be done by the staff of the DP only.
- 6.5.4.6 The authorized official must verify the following details from the DIS :
- Whether the DIS received from the BO is from the range of DIS issued to the same BO.
 - Whether all the account holders / authorized signatories / duly constituted POA, if any, have signed the DIS and the signature(s) on DIS match with signature(s) recorded in the CDSL system.
 - DIS having transactions with value more than 5 lakhs have to be verified by a senior official of the DP. Moreover, such DIS should be checked and countersigned by another employee of the DP (that is, two step verification).
 - Any alteration, correction, cancellation on the DIS should be authorized by all the holders / authorized signatories / POA, if any.
- 6.5.4.7 In case the signature(s) on the DIS do not match with the CDSL records, then the DP shall reject the DIS.
- 6.5.4.8 Utmost care shall be exercised while storing DIS for future reference.
- 6.5.4.9 If a DIS is received from an account, which has been dormant i.e. not operated for a long period, SIX months or more or any such period specified by CDSL and / or SEBI from time to time, the DP may verify the same with the account holders independently before executing the instruction.

However if all the ISIN balances in that account (irrespective of the number of ISINs) are getting transferred then the DPs shall mandatorily verify with the BO before acting upon the DIS. In case of active accounts such verification is mandatory if the BO account has 5

or more ISINs and all such ISIN balances are transferred at a time.

- The authorized official of the DP verifying such transactions with the account holders shall record the details of the process, date, time, etc., of the verification on the instruction slip under his / her signature
- Moreover, Such DIS may be checked and countersigned by another employee of the DP (that is, two step verification).

6.5.4.10 After entering an instruction in the CDSL system, a unique instruction id is generated. This instruction id should be written against the instruction on the DIS or annexure if an annexure is attached with the DIS. This should be done irrespective of whether the instruction is executed successfully or it has failed. Alternatively it should be possible to retrieve the transactions from the back office by entering DIS serial number / Internal reference number or any such unique reference number.

6.5.4.11 In case of the DIS having a large number of instructions by way of annexure attached to a DIS, the first transaction ID and the last transaction ID may be mentioned. Alternatively, the DP may mention the individual transaction ID against each transaction in the Annexure.

6.5.5 **Safeguards to address the concerns of BOs on transfer of securities**

6.5.5.1 The cautionary note: "*BLANK & SIGNED DIS SHOULD NOT BE LEFT WITH YOUR DP/BROKER*" should be printed on all types of DIS.

6.5.5.2 DPs should not accept pre-signed DIS with blank columns from the BO(s).

6.5.5.3 If the DIS booklet is lost / stolen / not traceable by the BO, the same must be intimated to the DP immediately by the BO in writing. On receipt of such intimation, the DP shall cancel the unused DIS of the said booklet and block them so as to avoid execution such DIS in future.

6.5.6 **Precautions while executing Fax Instructions**

6.5.6.1 DPs should obtain a "FAX INDEMNITY" from the BOs before accepting instructions through fax. Format for FAX INDEMNITY to be undertaken on stamp paper has been given as Annexure 6.7

6.5.6.2 The DPs can modify the format of the fax Indemnity to suit their requirements. However, DPs should ensure that the format of fax indemnity used by them should cover all the clauses mentioned in Annexure 6.7.

6.5.6.3 DPs should ensure that the indemnity has been signed by all holders of the account, is executed on a stamp paper of appropriate value and is submitted to the DPs in physical form.

6.5.6.4 If the BO has multiple accounts in different combination of names, a single fax indemnity could be obtained for all such accounts eg: For accounts in the name of A, B &

- C or B, C & A or A, C & B, a single fax indemnity can be used.
- 6.5.6.5 The DP can accept a single indemnity for multiple accounts of the same CM meant for different exchanges. E.g.: For a CM, having both BSE CM accounts and NSE CM accounts, the DP can accept one Indemnity.
- 6.5.6.6 The DPs should instruct their clients to first fill in the DIS. The DIS duly filled in and signed by the holder(s) or authorized signatories should be faxed to the DP on the fax number designated for this purpose.
- 6.5.6.7 DPs must advise the BOs to mention "FAX INSTRUCTION" on the top of the DIS. This would enable the DP to distinguish between original DIS and the fax copy, to avoid double processing of the same instruction.
- 6.5.6.8 DPs should preserve the instruction received through fax in legible form preferably by taking a photocopy of the fax instruction.
- 6.5.6.9 DPs may consider keeping a cut-off for the value of securities up to which the fax instructions can be accepted.
- 6.5.6.10 If annexures are faxed along with the DIS, DPs must advise BOs to mention the DIS number on each page of the annexure and also advise the BOs to sign each page of the annexure.
- 6.5.6.11 Before executing the fax instruction, the DP's official should affix the time stamp on the fax copy and verify the signatures of all the holders and authenticate the DIS as per the normal procedure as prescribed in the operating instructions for DPs.
- 6.5.6.12 DPs should ensure that the original DIS is received within **3** working days from the date of receipt of the fax instruction. The original DIS should bear the following words on the top –
- "This is a hardcopy of the fax transmission to you, transmitted on _____ day of _____ month of _____ year.
- 6.5.6.13 DPs should inform the BOs that failure to submit the original DIS within the stipulated time would result in suspension of the facility immediately and that the DP would not be responsible for non-execution of fax instructions after such suspension.
- 6.5.6.14 DPs should keep track of the DIS numbers received through fax to ensure that same fax instruction is not executed twice in case the BOs have faxed the same DIS twice.
- 6.5.6.15 DPs must affix the time stamp of receipt on both the fax as well as the original DIS.
- 6.5.6.16 DPs must file the original DIS and the fax copy together.
- 6.5.6.17 DPs should establish proper procedures to exercise utmost precaution to prevent multiple execution of same instruction
- 6.5.6.18 Branches of the DP may fax or send scanned instructions received from the BOs to the Main DP for execution. The Main DP should preserve/store the scanned/faxed documents along with the originals when received, for a period of not less than 5 years or as stipulated by SEBI / CDSL from time to time.

6.5.7 Shifted to Chapter 17 – Miscellanea – point No. 17.9

6.6 Instruction processing for temporarily disabled / illiterate / Blind BO

6.6.1. In case the BO cannot come in person to submit the DIS, the thumb impression of the BO on the DIS must be attested by a Magistrate or a Notary Public who is authorized to use the seal of his office, or a Manager of the bank where the BO has a bank account.

6.6.2 In case of temporarily disabled persons, the BO should also produce a medical certificate about BO's disability.

6.6.3 Transactions [i.e. transfer of securities between two BO accounts within CDSL]

6.6.3.1 DP shall receive a duly filled in DIS from the transferor BO OR transferee BO for execution of off-market transactions.

6.6.3.2 If the transferee BO has given instructions to waive confirmations for all credits, i.e. if the transferee BO has given purchase waiver as "Y", then the transferee BO need not give "receipt" instructions to the DP. In case the BO has given confirmation waiver as "NO" while setting up the account and subsequently wants to waive confirmations for all credits, the BO shall inform the DP by filling in the purchase waiver form – Annexure 6.1. The DP on receipt of such instructions will verify the signatures of the BO and set up instructions to waive confirmations.

6.6.3.3 After necessary verification, DP shall set an off-market instruction in the CDSL system.

6.6.3.4 Transactions set up with execution date as the "Current Business Date" would be taken up for processing immediately on set-up. If the DIS has been received with an execution date not available for processing (e.g. Sunday / System holiday then the DPs can enter the DIS with the next available date for processing.

6.6.3.5 Transactions set-up with execution date as "Future Business Date" would be taken up for processing at the beginning of the particular business date. Till such time the transaction would remain in the "Pending" status. All future-dated transactions should not have an execution date greater than **10 days** from the date of entry/upload on the CDSL system.

6.6.3.6 If the balance at the time of Debit is insufficient, the transaction will not be executed and will remain in the "Overdue" status. Transactions with "Overdue" status would be picked up for execution at pre-determined intervals (decided by CDSL from time to time) during the day. If sufficient balance comes in the account before End of the Day (EOD) of the execution date, the transaction shall be executed.

6.6.3.7 If sufficient balance does not exist in the account till the EOD of the execution date, the transactions would be reported as "Failed" transactions.

6.6.4 Pay-in of securities: Pay-in options

6.6.4.1 CM can perform pay-in of securities using either of the options given below:

- a) BO Level Pay-in: This option enables the BO to deliver the securities directly to the CH/CC of the exchanges.
- b) CM Level Pay-in: For using this option, securities have to be delivered by the BO to the respective CM through off-market transfers. The CM, in turn, would deliver securities received from the delivering BO to the CH / CC.

CM can deliver securities to the CH / CC using the following modes, which are explained below:

- **Normal pay-in**
- **Auto pay-in**
- **Early pay-in**

6.6.4.2 Normal Pay-in

- DP shall receive a duly filled in DIS for execution of on-market transactions from the BO / CM.
- DP shall verify the same and set-up an on-market instruction, i.e. set-up a BO obligation confirmation in the CDSL system.
- Seller BO / CM can give on-market instructions to the DP on the "T" day itself even if no balance is available in the account as the available balance from the seller BO / CM account would be picked up only at the pay-in deadline time.
- In case of BSE settlements, at the pay-in time, CDSL shall first earmark the available balances in the accounts for which "on-market" instructions have been entered.

Part earmarking in case of insufficient balances is permitted.

E.g.: If a BO account has 500 shares and an on-market instruction is entered for 600 shares, available balance of 500 shares will be earmarked, at the pay-in time.

- In case of settlement of trades done on exchanges other than BSE, the securities are moved from BO accounts for which on-market settlement instructions have been given, to their respective CM accounts at the pay-in deadline time. In case of insufficient balances, available balances are moved. After this transfer, all available balances in the CM accounts would be blocked and, thereafter, debit takes place.
- DP can advise BO / CM to maintain adequate balances in the accounts from where the on-market instructions are entered before the scheduled pay-in timings, as specified by the CH / CC of the respective Stock Exchanges.
- The BO confirmations can be modified or deleted by the DP till the pay-in time on receipt of instructions from the BO / CM.

6.6.4.3 Auto pay-in

- Using this pay-in option, securities would be automatically picked up from the BSE CMs

Principal account at the pay-in time, without the CM having to give any instruction.

- Based on the details of the net pay-in obligations of the CMs (who have opted for auto pay-in) received from the trading / settlement system of the stock exchanges, CH / CC shall generate the instructions for obligation confirmations through the CDSL system. Thus DPs will not receive any instructions from CMs for setup of auto pay-in instructions.
- Since modifications are not allowed for auto pay-in confirmations generated by the CH/CC. If a CM wants to cancel a specific auto pay-in instruction for a particular ISIN for a particular Settlement, the DP would receive a duly filled in deletion request in the format specified by CDSL - (Annexure – 6.5).
- DP shall verify the deletion request form and set-up a deletion request in the CDSL system.

6.6.4.4 **Early pay-in**

- DP shall receive a duly filled DIS for execution of early pay-in instructions from the BO / CM.
- DP shall verify the DIS and set up an early pay-in instruction in the CDSL system.
- DP shall ensure that the early pay-in instruction is given from the CM Clearing a/c or CM Principal a/c or BO a/c only.
- On set up of early pay-in instruction, the securities are immediately transferred from the concerned BO / CM account to the designated early pay-in account maintained with the CH / CC of exchanges.
- In case balances in the delivering a/c are insufficient at the time of set up of instruction, the transaction shall fail. DP will have to set up a fresh early pay-in instruction after the balance is available in the account.

6.6.5 **Pay-out of securities**

6.6.5.1 On pay-out, securities are delivered by the CH / CC of the exchanges to the designated CM accounts.

6.6.5.2 Alternately pay-out securities could be directly transferred to the buying BO account provided the CM gives the BO ID of their buying client through their respective trading terminals to the CH / CC.

6.6.5.3 DP shall receive duly filled-in DIS for execution of off-market transactions from the CM for transfer of securities from their designated CM accounts (where the pay-out of securities is received) to the buying BO account.

6.6.5.4 DP shall verify the DIS and set up off-market transactions in the CDSL system.

6.6.5.5 As per SEBI directive, CM must deliver the pay-out securities to their buying BO accounts within 1 working day from the day of pay-out or such time as may be decided by SEBI from time to time.

6.6.5.6 In case the securities are not transferred out within the specified time period, the CM will attract a penalty as stipulated by SEBI from time to time.

6.6.6 Inter depository transactions

6.6.6.1. DP shall receive a duly filled-in DIS for execution of Inter-depository transactions from the BO / CM.

6.6.6.2 In case the BO has opted for "Purchase Waiver" as "No" at the time of account opening, the DP shall receive receipt instructions from the BO / CM.

6.6.6.3. DP shall verify the following from the DIS –

- If the transfer is from/to an account holder with the other depository, whether the client ID and DP ID of the account held with the other depository has been mentioned in the DIS.
- If the transfer is to the CM Pool A/C with the other depository, whether the CM BP-ID, the market Type and Settlement Number for which the securities are to be transferred to the CM Pool Account has been mentioned.

6.6.6.4. After verification, DP shall set up an inter-depository instruction in the CDSL system.

6.6.6.5. DPs should ensure that Inter-depository transactions with execution on current business date are executed first. If the DIS has been received with an execution date not available for processing (e.g. Sunday/trading/system holiday) then the DPs can enter the DIS with the next available date for processing.

6.6.6.6. All future-dated transactions should not have an execution date greater than **10 days** from the date of entry/upload on the CDSL system.

6.6.6.7. DPs shall set-up inter-depository instructions in the CDSL system within such business hours as specified by CDSL from time to time.

6.6.6.8. Inter-depository transactions for execution on current business date will be taken up for processing on FIFO (first-in-first-out) basis.

6.6.6.9. If, on the execution date, the delivering account does not have sufficient free balance, the transaction will not be executed and will remain in the "Overdue" status. Transactions with "Overdue" status would be picked up for execution at pre-determined intervals (decided by CDSL from time to time) during the day. If sufficient balance does not come in the account before the Inter depository deadline time of that execution date, such transactions will fail.

6.6.6.10. For all inter-depository transactions accepted by the other depository, the delivering accounts will be debited.

6.6.6.11. For all inter-depository transactions rejected by the other depository, proper reason for rejection will be provided.

6.6.6.12. For account holder(s) who have opted for purchase waiver, CDSL system shall

automatically process transactions received from the other depository and credit the accounts of the receiving account holders.

6.6.6.13 For account holder(s) who have not opted for purchase waiver, receipt instructions will have to be given by the account holders to the DPs. In such cases, transactions received from the other depository would be processed only if corresponding matching receipt instructions are found in the CDSL system.

6.7 Reconciliation

6.7.1 The DP will have to ensure that the total instructions received are equal to the instructions executed + instructions pending.

6.8 Records

6.8.1 DP shall reconcile the records of all instructions received on daily basis.

6.8.2 All DIS received from BO should be maintained for a period of 5 years or any such period as specified by SEBI / CDSL / Prevention of Money Laundering Act, 2002, whichever is higher.

6.8.3 DP shall maintain a register, which records the serial number of the instructions slips issued to the BO.

6.8.4 Requisition slips received from the BO for fresh issuance of DIS booklets.

6.8.5 Register for loose DIS.

6.8.6 A record of statement / computer printouts containing consolidated details of instructions executed by the DPs on behalf of the clients who have given POA to the DPs should be maintained. For different types of transactions, separate statements / computer printouts should be maintained.

6.8.7 If original copies of DIS are submitted to CBI, CID or such investigation agencies, then copies of the document(s) should be preserved till such inquiry is completed.

7 TRANSMISSION

7.1 Objective:

7.1.1 The objective of transmission functionality is to allow the transfer of title of securities in case of death of an account holder and inheritance by a successor, as stated by the deceased BO.

7.2 Features

7.2.1 The securities are transferred into the account of either the surviving joint holder(s) or the claimant to the securities.

7.3 Reference To Law :

Depositories Act, 1996, SEBI (Depositories and Participants)
Regulations, CDSL Bye-Laws

7.3.1 SEBI Regulations

- Regulation 44 : Transfer or withdrawal by beneficial owner

7.3.2 Companies Act, 1956

- Section 109 : Transfer by legal representative

7.3.3 CDSL Bye Laws

- Bye Laws 13.9 : Transmission of securities

7.3.4. Prevention of Money Laundering Act, 2002

- Rule 6. : Retention of Records.

7.4 Annexures

- Annexure 7.1 : Transmission Request Form - (In case of Sole Holder's Death)
- Annexure 7.2 : Transmission Request Form -
(In case of Death of one of the Joint Holders)
- Annexure 7.3 : Letter of Indemnity
- Annexure 7.5 : Affidavit

7.5 Precautions

- 7.5.1 This transaction can be initiated by the DP for transfer of securities only in case of death of all or any of the holders or in any other case with the prior approval of CDSL. For transmission of securities in case of death of one of the holders, the new account would need to be opened in the same order of names of the surviving holders as given in the old account. For example: If the old account is in the names of **A, B & C** and "C" expires, the new account, shall necessarily be in the names of **A and B**.
- 7.5.2 In case the surviving holders wish to transfer the securities to a demat account with any other DP of CDSL, the DP shall ensure that the names of the surviving holders are in the same order of names as in the existing account. The surviving holders shall submit to the old DP, the Client Master Report of the new account duly stamped and signed by the new DP for effecting the transmission of securities. A declaration stating that all transactions in the account are authentic shall be submitted by the surviving holders to the old DP.
- 7.5.3 If the surviving holders wish to transfer the securities to a demat account with the **same DP**, the new account may be opened by the DP, based on the documents submitted at the time of opening of the original account. However, if the 1st holder in the new account is different from that in the old account, the DP shall ensure that the existing KYC norms are adhered to in obtaining the required proofs for recording of permanent and correspondence address. A declaration stating that all transactions in the account are authentic shall be submitted by the surviving holders to the old DP. Further, DPs shall ensure that the KYC documentation, for opening of new accounts, is as per SEBI and CDSL specifications in force at the time.
- 7.5.4 If the surviving holders wish to transfer the securities to a demat account with the other depository, they would have to submit the Client Master Report of the account with the other depository duly stamped and signed by the DP of the other depository. The CDSL-DP would need to verify if the account is in the same order of names of the surviving holders before effecting the transfer. The transfer may be effected using the Across-Depository option in the "Transfer-Transmission" Module in the CDSL system. The following documents shall also be obtained along with the Client Master Report:-
- Duly filled and signed Account Closure Request form.
 - Obtaining a Delivery Instruction Slip [DIS] is not required.
 - A declaration stating that all transactions in the account are authentic.
 - The DP shall apply to CDSL requesting waiver of charges for such transfers on a case-to-case basis.

- 7.5.5 If the transfer of securities from the account is to be effected to a claimant / Successor, the DP shall take measures to satisfy itself as to the identity of the Successor mentioned in the Succession documents.
- 7.5.6 The DP shall ensure that the copies of the documents submitted by the Claimant (Successor) are verified with the original documents.
- 7.5.7 On receiving intimation of the death of any of the holder(s) and after receiving the original Death Certificate or a copy of the same (duly notarized or attested by a Gazetted Officer), the DP shall not allow the execution of any instruction other than transmission request in the deceased BO's account, i.e. the DP shall freeze the account for debits with appropriate reason code.
- 7.5.8 The securities which are encumbered (i.e. Pledged, earmarked, etc.) will not be transferred out of the account and will remain in the deceased BO account till such time as the encumbrance is removed or the obligation (in case of earmarking) is met. Similarly, securities of ISINs that are 'Inactive' on account of pending corporate actions like 'Merger, Demerger, Scheme of Arrangement, Split, Consolidation etc or ISINs which are 'Frozen for debits and / or credits' pending listing of the company with the Exchanges pursuant to an Initial Public Offer (IPO) or Scheme of arrangement etc will not be transferred out of the account. In such cases, the account will reflect a "TO-BE-CLOSED" status. However at a later date, when the ISINs which are 'Frozen for debits and / or credits' are activated or the corporate actions pertaining to the 'Inactive' ISINs are processed and the securities are transferred to a new / resulting ISIN in the BO's account, the DP may process the transfer of the said securities to the account of the transmittee BO(s) based on a copy of the Transmission Request Form submitted earlier.
- 7.5.9 After receipt of all required documentation, the DP shall ensure that the Transmission request is processed within seven days of receipt of the same.
- 7.5.10 On transmission of all the securities to the Transmittee BO's account, the account of the deceased BO will be automatically closed by the CDSL system.

7.6 Procedure

7.6.1 Death of Sole Holder (Transfer)

- A) If the deceased BO has nominated a person, then the Nominee shall be entitled to the transmission of securities standing to the credit of the deceased BO's account. In such a case, the nominee shall submit the following documents to the DP –

 - b) Original or copy of the death certificate of the deceased holder duly notarized / attested by a Gazetted Officer.
 - c) Client Master Report (of the demat account of the nominee), in case the nominee has a demat account in individual capacity with another DP of CDSL. Nominee shall be the sole holder of the account. The DP shall ensure that the said nominee does not have any joint holders in this new account.
- B) If the deceased BO (sole holder) has not appointed a nominee, then the Successor(s) claiming title to the securities of the deceased BO (sole holder) must fill up the Transmission Form and submit the original death certificate of the deceased BO or a copy of the same, (duly notarised / attested by a Gazetted Officer) and any one of the following:
1. A Succession Certificate, or
 2. A Letter of Administration, or
 3. A Probate of the will of the deceased.
- If there is more than one claimant, the claimants / successors shall submit **one** Transmission Request Form to the DP.
 - However, if the Successors express their inability to produce either of the documents mentioned in 1, 2 and 3 above, and the market value of the securities held in each of the accounts of the deceased BO as on the **date of application** for Transmission does not exceed Rs. 5,00,000/- or such other amount as may be specified by CDSL and or SEBI from time to time, the DP shall process the Transmission request on the basis of the following documents:
 - a) Transmission Request Form – **Annexure – 7.1** [Part – II]
 - b) Original death certificate or copy of the death certificate of the deceased BO, duly notarized or attested by a Gazetted Officer.
 - c) Any one or more of the following documents:

 - (iii) No objection certificate [NOC] from all legal heir(s) who are not applicants conveying no objection to the transmission of

8 PLEDGE / UNPLEDGE / INVOCATION

8.1 Objectives

The pledge function provided in CDSL system helps in meeting the following objectives:

- Allow a BO (pledgor) to use his dematerialised securities as collateral for a pledge transaction with another BO (pledgee).
- Allow release (unpledging) of the pledged securities when the pledge obligation, as agreed between the pledgor and the pledgee, is fulfilled.
- Allow pledgee to invoke the pledged securities, if the pledgor does not fulfill the pledge obligation, as agreed between the pledgor and the pledgee.

8.2 Features

- Maker – Checker feature provided for better risk management.
- Pledge is not treated as a disposal of securities by the pledgor or an acquisition by the pledgee.
- Beneficial interest of the pledged securities remains with the pledgor.
- Pledge of free as well as lock-in securities is possible but invocation of lock-in securities is possible only after lock-in period has expired.

- Part / full unpledging of the securities by pledgor with confirmation by pledgee.
- Part / full invocation of the securities by pledgee without any action by pledgor.

8.4 Annexures

- Annexure 8.1 : Pledge Request Form (PRF)
- Annexure 8.2 : Unpledge Request Form (URF)
- Annexure 8.3 : Invocation Request Form (IRF)

8.5 Procedure

8.5.1 Pre-requisites

Following are the pre-requisites for carrying out pledge, unpledge and invocation activities through CDSL system.

- The pledgor and the pledgee must have accounts only in CDSL to create a pledge. However, the pledgor and the pledgee may hold accounts through different DPs of CDSL.
- The pledgor and the pledgee accounts should be active.
- The ISIN should be active.
- Pledgor DP and Pledgee DP each shall create at least two users to implement the maker – checker feature. Maker shall set up (initiate) the pledge/unpledge/invocation transaction. Checker shall verify the pledge / unpledge / invocation transaction initiated by the Maker. The same user cannot do initiation and verification of pledge/ unpledge /invocation transaction even though access rights are given to the user.
- The pledgor DP maker shall have the following options :
 1. Modify few details of the pledge till the pledgor checker verifies the same. Only the user who initiates the pledge (maker) can modify the details.
 2. Cancel the pledge request before the same is accepted or rejected by the pledgee DP.
- The pledgee DP maker / checker shall have the option to reverse a pledge accept / reject transaction initiated by pledgor maker if the initiation is erroneous.
- The Pledgor BO shall have the facility to set up pledge request with future date as execution date. If the execution date is not mentioned in the Pledge Request Form, then business date on which the Pledgor DP verifies the pledge will be taken as execution date.
- If the pledgee BO has given standing instruction for accepting pledge request, the

pledgee BO need not submit the Pledge Request form for acceptance of the pledge request, as the same shall be done automatically.

- The Pledgor BO shall have the facility to setup the pledge request even in case of insufficient / nil balance in the Pledgor BO account.

- **8.5.2 Pledge**
 - The pledgor BO shall fill up the Pledge Request Form (PRF) – Annexure 8.1, in duplicate for pledging the securities from his account and submit the same to its DP.
 - On receipt of the PRF from the pledgor BO, the pledgor DP will check the PRF for completeness, correctness and validity and subsequently setup the request.
 - On committing the transaction, a unique Pledge Sequence Number (PSN) is generated. The Pledgor DP shall record the PSN generated by the system on the PRF.
 - On the execution date if, the transaction has been verified by the pledgor checker and the securities to be pledged are unencumbered i.e. which are not earmarked for settlement or not already pledged or frozen, then the pledgee DP can access the PSN :
 1. When free securities are set up for pledge, securities are blocked in the pledgor BO account. Balances are moved from “free balance” to “pledge set-up balance”
 2. When lock-in-securities are set up for pledge, securities are blocked in the pledgor BO account. Balances are moved from “lock-in balance” to “pledge set-up balance”
 - CDSL system generates a letter giving details of the pledge setup. The Pledgor DP shall print this letter. An authorized official of the pledgor DP shall sign and stamp this letter and send the same to the pledgor. After pledge request is verified by the Pledgor DP, acknowledgement copy is generated during EOD for pledgee BO, at the pledgee DP's end.
 - If the Pledgee DP has not obtained standing instruction from the Pledgee BO then the Pledgee BO shall submit duly signed PRF to its DP with PSN. If the pledgee is a bank that also functions as a DP, then signature of the pledgee need not necessarily be taken on the PRF for acceptance of pledge.
 - Based on instructions received from the pledgee, the pledgee DP shall either accept or reject the request.
 - After the transaction is verified, CDSL system generates a letter giving details of the pledge. Pledgee DP shall print this letter. An authorized official of the pledgee DP shall sign and stamp the letter and send it to the pledgee.

- If the Pledgee BO has availed the standing instruction facility for pledge acceptance, then after verification of pledge setup by Pledgor DP and availability of balance on execution date, the transaction status will show as “verified accepted” and the Pledgee BO need not give instructions for accepting any particular pledge request to its DP.
- After pledge request is accepted/rejected by the Pledgee DP, acknowledgement copy is generated during EOD for Pledgor at the pledgor DP’s end.
- On acceptance of the pledge transaction by the pledgee DP,
 1. Free / lock-in securities are moved from “pledge set up balance” to “pledge balance” and are blocked (till the same are either unpledged or invoked)in the Pledgor BO account
 2. Securities are shown under “pledgee balance” in Pledgee BO account

8.5.3 Unpledge initiated by Pledgee without any action by Pledgor (Auto Unpledge)

- Unpledge can be for full/part quantity that is pledged.
- On approval of the unpledge request by the pledgee checker, the securities which were blocked in the pledgor BO account are released.
 1. Unpledged free securities are moved from “pledge balance” to free balance of Pledgor BO.
 2. Unpledged Lock-in securities are moved from “pledge balance” to lock-in balance of Pledgor BO.
- After the transaction is verified, CDSL system generates a letter giving details of the unpledge. Pledgee DP shall print this letter. An authorized official of pledgee DP shall sign and stamp this letter and then send the same to the pledgee BO. After unpledge request is verified by pledgee DP, acknowledgement copy is generated during EOD for pledgor at the pledgor DP’s end.

8.5.4 Unpledge Initiated by Pledgor

- The pledgor BO through its DP can make a request for unpledging the pledged securities. The pledgor BO shall fill up the Unpledge Request Form (URF) in duplicate and submit duly completed form to its DP.
- Unpledge can be for full /part quantity that is pledged.
- After unpledge request is set up by pledgor DP, acknowledgement copy is generated during EOD for pledgee at the pledgee DP's end.
- After the transaction is verified, CDSL system generates a letter giving details of the unpledge setup. Pledgor DP shall print this letter and send the same to pledgor after it is duly signed and stamped by the authorized official of the DP.
- The pledgee BO shall submit duly signed URF mentioning the details of the pledge with instructions to the pledgee DP to accept / reject the unpledge request.
- Based on the instructions received from the pledgee BO, the pledgee DP either accepts or rejects the unpledge request.
- On acceptance of the unpledge request by the pledgee DP; the securities which were blocked in the pledgor BO account are released.
 1. Unpledged free securities are moved from "pledge balance" to free balance of Pledgor BO.
 2. Unpledged Lock-in securities are moved from "pledge balance" to lock-in balance of Pledgor BO.
- After the transaction is verified, CDSL system generates a letter giving details of the unpledge. Pledgee DP shall print this letter. An authorized official of the DP shall sign and stamp the letter and send the same to the pledgor. An acknowledgement copy is generated during EOD for pledgor BO after the unpledged request is verified by pledgee DP at the pledgor DP's end.

8.5.5 Invocation

- The pledgee BO can invoke the pledged securities through its DP. The pledgee BO shall fill up the Invocation Request Form (IRF) – Annexure 8.3, for invoking / the securities and submit it to its DP.
- Invocation can be for full quantity or for part quantity that is pledged.

- ii. If the pledge is for lock-in securities, then invoke request cannot be setup till the lock-in period is over.

After the transaction is verified, CDSL system generates a letter giving details of the invocation. Pledgee DP shall print this letter. An authorized official shall sign and stamp this letter and send the same to the pledgor. An acknowledgement copy is generated during EOD for pledgor BO after the invocation request is verified by the pledgee DP at the pledgor DP's end.

- 8.5.6. DPs should ensure that whenever a pledge request is set up, the same should be verified by pledgor DP checker / accepted / rejected / cancelled within 15 days from the set up date. If pledge requests remain unexercised for more than 15 days, from the set up date, CDSL will have the option to cancel such pledge requests after the stipulated time.

8.6 Reconciliation

- 8.6.1 The DP should reconcile, on a daily basis, the total number of pledge / unpledge / invocation requests received to the total number of pledge / unpledge / invocation requests executed and total number of pledge / unpledge / invocation requests pending.
- 8.6.2 The DP should reconcile on a daily basis the total number of pledge / unpledge / invocation requests entered by the maker to the total number of pledge / unpledge / invocation requests verified by the checker.

- 9.1.2 In the case of Repurchase, the remat module is used to expunge (remove) the securities and obtain the proceeds against the same.

9.2 **Features**

- 9.2.1 Rematerialization is a process by which the Securities held in electronic form are converted into paper mode securities by the Beneficial Owners.
- 9.2.2 While, in the case of Repurchase, the payment is issued to the BO by the Issuer/RTA in lieu of securities held in electronic form.

16.5 Transaction statements to be given to Banks having BO accounts

RBI has made retail trading in government securities through the stock exchanges operational with effect from 16-01-2003. Further, the Department of Banking Operations and Development of RBI, vide their circular dated 16-01-2003 has enabled banks to trade in government securities through the stock exchanges. The circular also clarifies that government securities maintained by the banks with the depositories will be included for Statutory Liquidity Ratio (SLR) purposes and that SLR is to be maintained on a daily basis.

In view of the above, DPs are required to furnish a statement of holdings to their banking clients, as on every Friday, detailing the securities held by them on each day of the week, so as to enable the bank clients to meet with the RBI requirements.

16.6 Providing statement of accounts in electronic form

SEBI has permitted the DPs to replace the hard copy statements by electronic statements, vide its circular no. MRD/DoP/Dep/Cir-27/2004 dated August 16, 2004. As per the circular it has been decided to permit the DPs to provide transaction statements and other documents to the BOs under Digital signature, as governed under the Information Technology Act, 2000, subject to the DP entering into a legally enforceable arrangement with the BO for the said purpose. The providing of transaction statements and other documents in the aforesaid manner would be deemed to be in compliance of the provisions of the Regulation 43 of SEBI (Depositories & Participants) Regulations, 1996. However if the BOs are still desirous of receiving statements in hard copy form, the DPs shall be duty bound to provide the same.

DP and BO need not enter into a separate stamped agreement for the purpose of sending/receiving statements by an electronic mode, provided that:

1. Any BO who wishes to avail such a service from the participant will be required to inform the concerned participant specifically in writing separately or as part of account opening form regarding his decision and will also inform the email id on which e-statement will be sent. If no email id is mentioned separately then e-statement shall be sent at Sole / First Holders email id stated in the account opening form.
2. Further, if such a BO decides to withdraw his consent to receive such statements electronically, he may inform the DP accordingly in writing. After receipt of such communication from the BO, the DP shall be bound to forward the statement of accounts in physical mode to such a BO.

16.7. Exemption from sending statement of accounts to BOs.

16.7.1 In respect of demat accounts with nil transactions and zero balance:

1. Accounts with zero balance and nil transactions during the year:

The DPs shall send one physical statement of holding annually to such BOs and shall resume sending the transaction statement as and when there is a transaction in the account.

2. Accounts which become zero balance during the year:

For such accounts, no transaction statement may be sent for the duration when the balance remains nil. However, an annual statement of holding shall be sent to the BO.

16.7.2 In respect of demat accounts with nil transactions and credit balance:

For accounts with credit balance but no transactions during the year, one statement of holding for the year shall be sent to the BO.

In terms of CDSL's DP Operating Instructions, Chapter 3: Account Administration & Maintenance, point 3.4.12 – Updation of change in address of Corporate / Clearing Member / Bank, one of the documents to be submitted to the DP is the "latest transaction statement received from the DP". For the abovementioned requirement, the last transaction statement received by such BOs from the DP will be considered as a valid document under the said DP Operating Instructions, point 3.4.12.

16.8 Records

Record of proof of dispatch of statements to the BO and any other supporting documents shall be maintained with the main DP for 5 years or any such period specified by SEBI / CDSL from time to time.

In terms of Regulation 46 of the SEBI (Depositories and Participants) Regulations, 1996, every DP shall have adequate mechanism for the purpose of reviewing, monitoring and evaluating its internal accounting controls and systems. Further, clause 19 of the Code of Conduct for Participants contained in the Third Schedule to the Regulations inter alia states that the DP shall ensure that it has satisfactory internal control procedure in place. It is clarified that these provisions apply to DPs in respect of all their branches also. DPs are therefore required in terms of these provisions to put in place appropriate mechanisms to ensure that their branches are carrying on the operations in compliance with the applicable regulations, bye-laws, etc. Further, DPs are also required to put in place suitable internal control systems to ensure that all branches are exercising due diligence in opening accounts, complying with KYC requirements, in ensuring systems safety in complying with client instructions, manner of uploading client instructions, in verifying signatures and in maintaining client records, etc. DPs shall also ensure that the branches are suitably integrated. The DPs whose systems do not measure up to the above are hereby advised to ensure such compliance immediately.

17.7.1 DPs are advised to note that with effect from **November 01, 2009**, prior approval of CDSL should be obtained for opening a DP Service Centre including back office connected branches and collection centres. For this purpose, an application is required to be submitted to CDSL along with the requisite information in the prescribed formats [see **Annexure 17.5** and **Annexure 17.6**]. - 17.8.5 As per the provisions of the Information Technology Act 2000 (IT Act), all transactions carried out electronically which have been authenticated by means of a digital signature only are legally recognized. Hence, all the instructions submitted electronically should be authenticated by means of a Digital Signature issued by a Certifying Authority (CA) licensed by the Controller of CA. This would ensure that the Clients themselves / their representatives have submitted the instruction which cannot be repudiated later. Accordingly, as mentioned above, the DP should establish systems/processes to confirm that instructions received in electronic form are digitally signed by the Client / his representative and are not modified subsequent to digitally signing of instructions. Further, the systems/process that DP establishes should permit the Client / authorized representative to ensure that the digitally signed instructions are received only by an authorized individual official ID of the DP.

- 17.8.8 Electronic instructions received by the DP should be authenticated by means of a Signature Verification Utility [SVU]. This is mandatory to ensure that the instructions are received from the Client./ authorized representative only. The SVU should be issued by the CA licensed by the Controller of CA to validate the digitally signed files received from the Client. The SVU should strip the digital signature on successful authentication.
- 17.8.9 The new file generated after authentication should be stored separately before uploading/executing in the CDSL System and the original file with the digital signature should be stored as was received. The DP should ensure that the authenticated file is not altered and accurately represents the information originally received or sent by the Client, before uploading / executing the file in the CDSL system. The DP is liable for any claims that may be raised by the Client on account of any loss arising from execution of instructions which are altered subsequent to the stripping of the digital signature.
- 17.8.10 DPs should ensure that instructions submitted electronically using a digital signature are retained, along with the digital signature, for the period specified by the regulatory authority.
- 17.8.11 DPs should be able to produce these electronic records in a readable form to CDSL, SEBI or to any other Statutory Authority, whenever required. CDSL inspects the records of its Participants at regular intervals. Therefore, the file formats of the digitally signed instructions should adhere to the file formats prescribed by CDSL.
- 17.8.12 A link / tag between the file uploaded in the CDSL system, transaction in the file and trade / transaction ID generated by the CDSL system for each transaction should be available at all times. The link / tag should be able to establish the file number and the transaction contained in that file, on the basis of a particular trade ID / transaction ID retrieved from the CDSL system.
- 17.8.13 The DP back office shall, compulsorily, have a system to differentiate transactions (digitally signed) from those received physically / through easiest.
- 17.8.14 A daily record of the files received and processed along with the total number of

- transactions contained in each file and the date should be available for verification.
- 17.8.15 Only authorized officials should be allowed to digitally sign the file. DPs should be able to establish the identity of the person doing the same. The relevant record should also establish the identity of the person doing the same. The relevant record should also establish the identity of the Certifying Authority (i.e. Tata Consultancy Services or any other provider).
- 17.8.16 Compliance to be carried out in accordance with the requirements as per CDSL's Bye-Laws, DP Operating Instructions, SEBI directives/guidelines, communiqués issued by CDSL from time to time and other regulatory requirements.
- 17.8.17 The DP should carry out proper KYC of the applicant as specified by the agency issuing the digital signature. The KYC documents submitted by the applicant should be verified with the information present in the CDSL system. In case of discrepancy, the CDSL system should be updated, ensuring that the modification is carried out in accordance with the requirements as outlined in CDSL's DP Operating Instructions.
- 17.8.18 The records of electronic instructions received and executed should be maintained in accordance with the provision of the PMLA Act, 2002 Regulation 50 of the SEBI (D&P) Regulations.
